## The Beretta Cup 2024: Premier Skeet Shooting Event

Beretta Canada is thrilled to announce the Beretta Cup 2024, an olympic skeet shooting competition showcasing the top talent across the nation. The event will take place over two weekends: the first leg is scheduled for May 25<sup>th</sup> and 26<sup>th</sup>, with the second leg following on July 15<sup>th</sup> and 16<sup>th</sup>.

Skeet shooting is a challenging olympic sport that tests participants' accuracy and speed. Competitors use shotguns to hit clay targets simulating the flight of birds. The Beretta Cup 2024 will highlight the intricacies of this sport while showcasing the nation's best skeet shooting talent.

The competition is two parts, with the overall winner determined based on the combined highest score from both parts. The ultimate prize for the overall champion is a 686 Silver Pigeon Sporting shotgun, a true example of excellence in skeet shooting. This award highlights Beretta's commitment to supporting and promoting the highest standards of marksmanship.

Olympic skeet shooter Don Kwasnycia will be hosting the event, bringing his elite expertise and diverse experience to the competition.

For pre-registration, please contact Alex Garrin at (514-707-6935). On-site registration will also be available prior to the start of the first round on Saturday.

Beretta is dedicated to excellence and connection building in the sport shooting community, and the Beretta Cup 2024 is a key part of this mission.
